FIELD NOTES

OF THE

DEPENDENT RESURVEY OF A PORTION OF THE SUBDIVISIONAL LINES,

AND

THE SUBDIVISION OF SECTIONS 21 AND 28

AND THE METES-AND-BOUNDS SURVEY OF THE

EAGLETAIL MOUNTAINS WILDERNESS AREA BOUNDARY,

TOWNSHIP 2 NORTH, RANGE 11 WEST,

OF THE GILA AND SALT RIVER MERIDIAN,

IN THE STATE OF ARIZONA.

EXECUTED BY

Stephen K. Hansen, Cadastral Surveyor

Under Special Instructions dated April 15, 1998, approved April 15, 1998, which provided for the surveys included under Group No. 827, and assignment instructions dated April 15, 1998.

Survey commenced November 19, 1999

Survey completed January 13, 2000

Metes-and-Bounds Survey of the EMWA Boundary	Pages 10-28

T. 2 N., R. 11 W., Gila and Salt River Meridian, Arizona

CHAINS

The following field notes describe the dependent resurvey of a portion of the subdivisional lines and the subdivision of sections 21 and 28 and the metes-and-bounds survey of the Eagletail Mountains Wilderness Area boundary, Township 2 North, Range 11 West, Gila and Salt River Meridian, Arizona.

The history of surveys pertaining to this resurvey is as follows:

Jesse B. Wright surveyed the north and east boundaries, in 1914. Francis E. Joy and Robert H. Fischer surveyed the south and west boundaries and the subdivisional lines, in 1934.

The survey was executed in accordance with the specifications as set forth in the Manual of Instructions for the Survey of the Public Lands of the United States, 1973, and the Special Instructions dated April 15, 1998, for Group No. 827, Arizona.

The directions of all lines were determined and distances measured, by the technique of differential positioning using Trimble Navigation 4400 Series Global Positioning System receivers utilizing the Real-Time Kinematic technique.

Preliminary to the resurvey, the lines of the prior surveys were retraced and search was made for all corners and other calls of record. Identified corners were remonumented in their original positions. Lost corners were reestablished and remonumented at proportionate positions based on the official record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the corner of sections 1, 2, 35 and 36, on the south boundary of the township, was determined by the technique of differential positioning using the Trimble Navigation 4400 Series Global Positioning System. First order U. S. Coast and Geodetic Survey triangulation station "COURT 1948" with published latitude of $33^{\circ} 27' 29.79051''$ N. and published longitude of $113^{\circ} 17' 14.89736''$ W., NAD83(1992), was used as the control station. The geographic position is as follows:

Latitude: $33^{\circ} 27' 52.13''$ N. Longitude: $113^{\circ} 21' 08.51''$ W.
NAD83(1992)

The mean magnetic declination is $12\frac{1}{4}^{\circ}$ E.

GENERAL DESCRIPTION

The Eagletail Mountains Wilderness Area lies about 65 miles west of Phoenix near the town of Tonapah, Arizona. Access is by way of various roads exiting from Interstate 10.

Terrain ranges from rocky and mountainous to sandy washes in the lower elevations. Fauna is typical of the Sonoran desert and includes creosote, cacti, paloverde and ironwood. There are mule deer, bighorn sheep, and mountain lions in the area.

Elevation is about 1600 feet above sea level.

No recent mining activity was noted.

The mean magnetic declination of 12½° E., was derived from the United States Geological Survey computer program GEOMAGIX, utilizing the Regional Magnetic Field Model for Epoch 1995 for the dates of survey.

FIELD ASSISTANTS

[illegible]

CERTIFICATE OF SURVEY

I, Stephen K. Hansen, Cadastral Surveyor, HEREBY CERTIFY upon honor, that in pursuance of special instructions bearing date of the 15th day of April, 1998, I have dependently resurveyed a portion of the subdivisional lines and subdivided sections 21 and 28 and performed the metes-and-bounds survey of the Eagletail Mountains Wilderness Area boundary, T. 2 N., R. 11 W., Gila and Salt River Meridian, Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction. Said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

12/07/00
(Date)

Stephen K. Hansen
(Cadastral Surveyor)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of a portion of the subdivisional lines and the subdivision of sections 21 and 28 and the metes-and-bounds survey of the Eagletail Mountains Wilderness Area boundary, T. 2 N., R. 11 W., Gila and Salt River Meridian, Arizona, executed by Stephen K. Hansen, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

July 23, 2001
(Date)

Kenny D. Ravnikar
(Chief Cadastral Surveyor of Arizona)

~~CERTIFICATE OF TRANSCRIPT~~

~~I CERTIFY That the foregoing transcript of the field notes of the above described surveys in T. 2 N., R. 11 W., Gila and Salt River Meridian, Arizona, is a true copy of the original field notes.~~
